Shruti Kalamdani · Product Design Leader

kalamdanishruti@gmail.com · shruti-kalamdani.com · linkedin.com/in/shruti-kalamdani · +971 50 376 1530 · Dubai, UAE

Product design leader with 13 years across fintech, streaming, and developer platforms. At Upstox, launched and scaled Invest Mode to 37% of monthly active users, led design for insurance and loans, and grew a 25-person design org. Before that, 5 years at Amazon designing Prime Video localization and Appstore developer tools. Leads teams and strategy while staying hands-on from research through launch.

EXPERIENCE

Director of Product Design, Upstox

Nov 2022 – Dec 2025 · Bengaluru, India

- Scaled Invest Mode to 37% of Upstox's monthly active users, adding FDs, IPOs, gold, bonds, and NPS, which contributed 7% incremental broking revenue.
- Redesigned login and onboarding, lifting lead-to-customer conversion by 3 percentage points.
- Led design for the 2024 insurance launch (motor, then life, health, and corporate) and a standalone loans app (personal loans, loans against mutual funds).
- Grew and led a 25-person design org (20 in-house, 5 vendor): scaled Invest from 4 to 10 designers, managed Invest and Pro for two years, and promoted internal leads for Pro and a new website team.

Design Architect, Upstox

Jul 2021 – Nov 2022 · Bengaluru, India

- Launched Invest Mode with stocks and mutual funds; the mutual funds launch improved 6-month user retention by 48%.
- Redesigned the stock detail page's fundamentals and charts to help investors evaluate stocks.

Senior UX Designer, Amazon · Prime Video Localization

Jul 2018 – Jun 2021 · Bengaluru, India

- Designed localization tools for Amazon Studios and content partners to manage subtitles, dubs, and other assets, helping localize the Prime Video catalog for 230 countries in 27 languages.
- Designed a tool that automates marketing asset creation for Prime Video titles across in-app and external placements.

UX Designer, Amazon · Appstore Developer Portal

May 2016 – Jul 2018 · Bengaluru, India

- Designed ingestion tools that bring apps and content into the Appstore for Fire tablets and Fire TV.
- Designed developer portal tools that let game developers set up tournaments in their games and on Twitch.

UX Designer, Clarice Technologies (now Globant)

Jul 2013 – May 2016 · Bengaluru, India

- Worked on strategy, research, UX and UI design, and usability testing for enterprise tools: construction asset management, airline revenue management, e-commerce accounting, and virtual network management.

Earlier experience

- **Junior Designer**, Dig Design Studio, Bengaluru · Feb 2009 – May 2011 — worked on UI, research, and branding projects, including research for Intuit and branding for BMTC's Big 10 buses.
- **Research Assistant**, Nanyang Technological University, Singapore · Dec 2012 – May 2013 — designed remote games introducing children to world mythologies.
- **Research Assistant**, IDC, IIT Bombay · Jul 2011 – Nov 2012 — assisted a professor on corporate projects.
